May 4 – May 7 * Baltimore, MD

Instructions for Poster Symposia Presentation

Your abstract has been selected for presentation in a poster symposium format. The time, date, location and title of your session are noted on the enclosed notification. Posters may consist of brief introductory statements and conclusions, graphs, diagrams and photographs. **Tacks and your assigned poster order number will be provided.**

Poster symposia are 2 hours in length and are comprised of a viewing period and a discussion session. Authors should be in attendance at the poster site during the designated viewing time. Following the viewing period a discussion session (for both authors and interested attendees) will be chaired by two previously selected session moderators. The moderators will determine the exact format for the discussion period. You will receive detailed instructions regarding the format of the symposium from the moderators in the very near future. The schedule below indicates the set up time for your symposium.

Poster Preparation

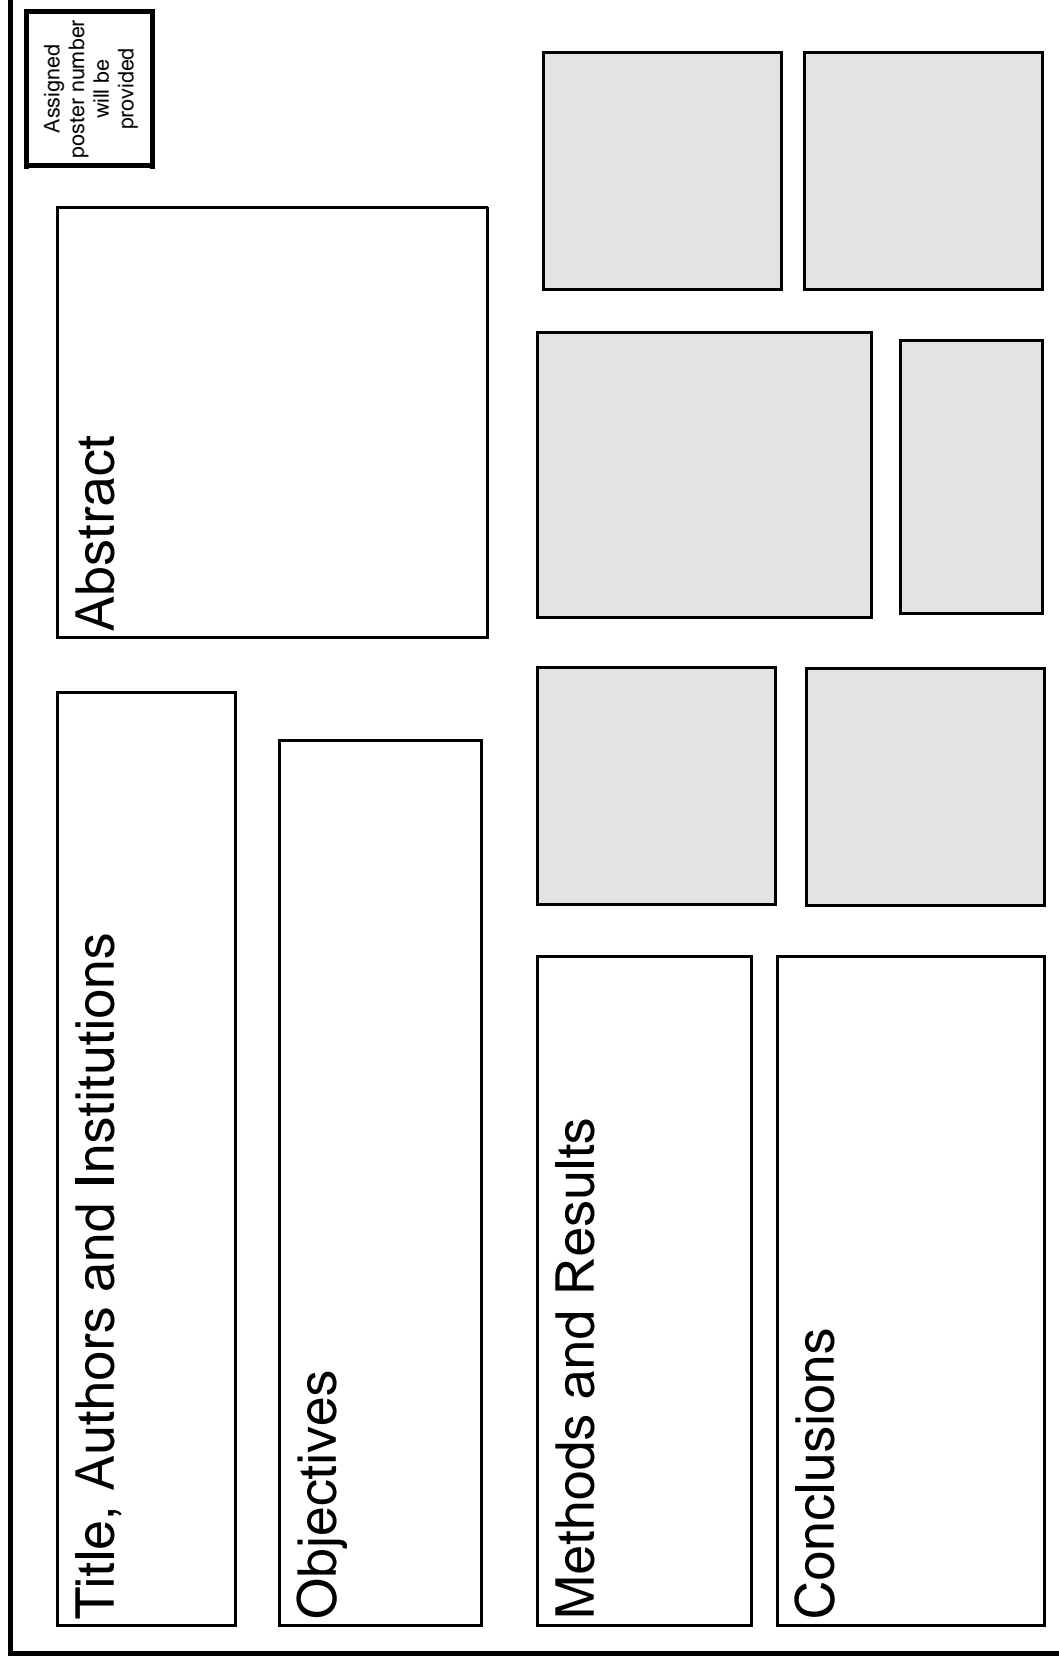

The poster board is 4' high and 8' wide (see reverse side). Posters may be prepared from individual, backed pieces, or photocopied on a single sheet. Prepare a sign for the top of your poster space indicating its title, authors and institutions. The lettering for this section should be at least 1" high. Bring a copy or reproduction of your abstract to post in the upper right corner of the board. All illustrations should be made up beforehand. Bear in mind that these must be read from distances of about 3' or more. Charts, drawings and illustrations might well be similar to those you would use in making slides. Mounting material for illustrations or poster segments should be firm, but not so heavy it will be difficult to secure in place on the poster board. Hand lettered material should contain bold lettering at least 3/8" high. Shade block letters where possible. Keep illustrative material simple. You will find it useful to have on hand a tablet of paper as well as one or two felt marking pens. You may be contacted by SciFor, Inc., who, for a fee can assist poster presenters with the production of their posters. Should you not be interested in this service, please disregard that email. Visit our website at www.pas-meeting.org to link to SciFor, Inc. for further information on their services.
