

*Sent on behalf of Dr. Patrick Brophy*

Dear Program Committee Members,

We are entering the next phase of the planning process for the PAS 2021 Meeting. The [Abstract Sessioning site is now live](#), and will remain open until Tuesday, Feb. 9, at 11:59 pm ET.

We will send a separate email this afternoon to all coordinating chairs with information about specific topic areas, as well as many helpful links and resources.

If you are new to the committee or need a refresher, we encourage you to watch the **Abstract Sessioning Webinar**—many thanks to Benard Dreyer for sharing his input and perspective on creating strong original science sessions!

The Webinar and two other videos--an **Abstract Sessioning Tutorial** (how to work with ScholarOne) and an **Abstract Review & Selection Presentation** (the PDFs from the Webinar)—are available on the [Program Committee Website](#). The **Vimeo password** for all presentations is **PAS2021**.

If anyone needs assistance with moving abstracts into sessions once you've made your selections, please let us know. We have a tight turnaround between the end of sessioning and the Program Committee call, so contact us as early as possible if you need help.

**Thank you for your incredible commitment to advancing child health and we look forward to getting together virtually on Feb. 10 at 2:00 pm CT to wrap up this phase of planning.**

If you have any questions, please reach out to Belinda and Catha. They're happy to assist you.

All the best,

Patrick D. Brophy MD, MHCDS  
PAS Program Chair

**Belinda Thomas, PMP**  
**Director, Scientific Programs**
