

Program Committee March Newsletter – PAS 2021 Virtual

March 26, 2021

Dear Program Committee Members,

The PAS 2021 Virtual Meeting is five weeks away and, as you can imagine, the PAS team is hard at work finalizing all the details. We are excited to share the scientific research and education you selected with attendees. Here is a quick update on where we are and what to expect in the weeks ahead.

- Presenter and Moderator Guidelines were emailed to participants last week. The guidelines and many additional materials are available on the [PAS Website](#).
- The **PAS Presentation Management Portal (CadmiumCD)** is now open. Presenters should have received their personal login credentials on **March 24**. The login will provide access to complete their assigned tasks, including recording and uploading videos and posters by the **April 16** deadline.
- The PAS **Online Program Guide is on target to release the middle of next week (March 31 or April 1)**. Everyone will be able to view the details of sessions in Phase I and Phase II. Session descriptions, timing, and abstracts will be viewable. Keep in mind slides and presentations will not be available until April 28. If you see errors in any of your sessions, please use the [Change Request Tracker Form](#) to alert us.
- On **April 1**, registered attendees will receive their log in credentials, and they can start marking their favorites and building their schedule.
- The **full virtual platform**, with all uploaded videos, posters, and presentations, will be opened on Wednesday, **April 28**. Attendees can start watching pre-recorded On-Demand presentations, interact with each other via the Q&A sections, and explore the virtual exhibit hall.
- The meeting officially kicks off on **April 30** with several exciting new PAS Postgraduate Courses, a new Ethics course, the APPR/PAS Fellows Core Curriculum Workshop. Any registered attendee can easily go back to their registration notification to add ticketed events at any time before April 30. Look for an email soon with more details about the new courses to share with colleagues. The **Opening General Session** starts at 4:30 pm Central—the Keynote Speaker will be announced next week!

In the new virtual world, we realize that there are many questions—please let us know how we can assist you and your colleagues. We appreciate everything you do to advance the PAS Meeting as the premier North American scholarly child health meeting.

Best regards,

Belinda Thomas, PMP
